AQUAREVIVAL REGEN MEDIA WATER FILTER NOMINATED AS WISCONSIN'S COOLEST PRODUCT

DEHAVAN, WIS., (Sept. 21, 2026) – AquaRevival's Regenerative Media Water Filter has been nominated for the [2026 Coolest Thing Made in Wisconsin Contest](#). The contest, sponsored by the Wisconsin Manufacturers & Commerce, sets out to determine the Coolest Thing Made in Wisconsin and highlight the state's vibrant manufacturing industry. Voters can choose their favorite products [online](#) at <https://www.madeinwis.com/entries/aquarevival-regenerative-media-water-filter/>

The benefits of the [AquaRevival's Regenerative Media Water Filter](#) are especially timely, given the instances of families sickened by contaminated pools and waterparks occurring this summer. To help address these problems, AquaRevival's solution removes dirt and harmful parasites, such as cryptosporidium. The company's exclusive, patented technology not only cleans water better than traditional filtration methods, it's also more environmentally responsible, saving 99% on wastewater, and 55% on energy and chemical consumption.

The AquaRevival Regenerative Media Water Filter will be featured at the 2026 World Waterpark Association Annual Symposium & Trade Show, October 7-8 in Las Vegas at Booth 621, the 2026 IAAPA Expo (International Association of Amusement Parks & Attractions) November 17-20 in Orlando at Booth 1237, and at the Athletic Business 2026 Show, November 18-19, 2026 in Orlando at Booth 736.

About AquaRevival

Headquartered in Delavan, Wis., AquaRevival elevates water filtration to a higher standard with its patented regenerative media system. Blending time-saving automation with a sustainable water-saving process, AquaRevival's [NSF-certified](#) systems offer aquatics facilities, waterparks, food and beverage processors, hotels, farmers and power generation facilities with a clear way to reduce costs and simplify their operations while producing the cleanest, purest water.
